	2005-06	HKB-MAG5	51.0"
Grand Cherokee	2011	HKB-MAL7	54.0"

All Federal Signal lightbars may be permanent or hook-on mounted. When using a hook-on mount, a separate hook kit is required for the make, model and year of your vehicle. Use the hook kit reference guide to find your vehicle's appropriate hook kit. Measurements for the roof width are determined by the style of the vehicle. These measurements may help you in choosing the lightbar length best suited for you vehicle.

## Permanent Mounting: (no hook kit required)

**Vision and Vector** models use VMPK permanent mount kit.

**Vista** models use XPK permanent mount kit.

**JetStream, JetStrobe, AeroDync and all StreetHawk** lightbars use UNPK permanent mount kit.

## Hook-on Mounting: (refer to hook kit reference guide)

**Vision and Vector** models use VM-SB mounting brackets plus hook kit.

**Vista** models use XHK-SC brackets plus hook kit.

**AeroDync and all StreetHawk** lightbars use UNHK mounting brackets plus hook kit.

**JetStream and JetStrobe** use JNHK mounting brackets plus hook kit.
